

## YOUR OWN AI ADVISORY AGENTS

# Stop trading on gut feel alone.

Compose AI advisory agents that study everything you hold — crypto and stocks, all in one place — then hand you clear advice you can act on yourself, or place through Kwantle.

## No autopilot. No black boxes.

Take the advice to your venue yourself, or let Kwantle place it — your call, every time.

AGENT'S CALL

Yes

New orders came in far above forecast on AI-chip demand — yet ASML's share price hasn't caught up.

Analysed ASML's Q3 report · 52 pages

Place via Kwantle

I'll do it myself

## HOW IT WORKS

### Connect your venues

Link your Bitvavo or Saxo account — crypto and stocks, side by side in one view.

### Compose your agents

Start from a template you edit or a blank canvas, then run them for clear advice and new opportunities.

### Decide how to act

Act on the advice yourself on your venue — or let Kwantle place the trade, only when you approve.

## WHY KWANTLE

#### THE TRADING TOOLS YOU KNOW

- × **Passive dashboards** — charts only; you do all the analysis.
- × **Black-box bots** — trade your money behind an opaque system.

#### THE KWANTLE WAY

- ✓ **Your agents analyse and advise** — you decide what to do.
- ✓ **Place trades yourself, or via Kwantle** — only when you approve.

## WHAT YOUR AGENTS CAN DO

Read holdings across venues

Watch markets & research

Propose orders & cancels

Run on the model you pick

#### EVERY VERDICT, FIVE CLEAR LEVELS

Stated per agent in plain words — **never blended** into one platform score.

- ✓ **You choose how to act** — trade it yourself, or let Kwantle place it for you.
- ✓ **We connect, never custody** — your assets stay in your venue account.
- ✓ **Every move is explained** — a plain-language reasons, never a black box.
